

Belgium & Luxembourg

The Global Language of Business

Dear Member, Dear Customer

Below you will find the rates of GS1 Belgium & Luxembourg for the year 2025, approved by our [Board of Directors](#) on October 24, 2024.

The new rates reflect both the annual indexing due to inflation and the necessary investments in continuous improvements to our applications and cybersecurity to protect your data.

What are the main changes compared to 2024?

We are moving towards a usage-based pricing structure, meaning that the cost of your subscription will be calculated based on the size of your pack of codes and your turnover. The subscription price will better reflect the size of the package you own (the bigger your package, the more you pay).

What are the main changes for the solutions offered by GS1 Belgilux?

Our solutions, such as My Product Manager and My Coupon Manager, incorporate new functionalities and enhanced cybersecurity measures that require significant investments.

Additional resources are also required to prepare for the transition to a circular economy and the advent of the [Digital Product Passport](#), or to digitise the coupon-issuing process.

An important change: My Basic UDI-DI Manager becomes a paid service

Starting January 1, 2025, [My Basic UDI-DI Manager](#), the solution for creating your Basic UDI-DIs and sending them to EUDAMED, will no longer be included in the My Product Manager Share subscription.

To access this service, an additional subscription will be necessary. The My Product Manager Share subscription will still be required.

This decision was made to ensure the quality and compliance level you expect. Significant improvements have been made to the tool, such as the direct link to EUDAMED.

This change optimises the management of your Basic UDI-DIs and Global Model Numbers (GMN) while offering you smoother and more secure access to European regulations.

Our various services, such as our trilingual helpdesk, [training](#) and [e-learning](#), barcode verification service and the creation of your [QR code with Digital Link](#), are, of course, included in your annual fee.

You will receive your annual invoice for your subscription at the beginning of January.

This is the ideal time to check if your billing details are still up to date in My GS1.
